PLAN REVIEW

If you wish to call a company, names and phone numbers are located in this website.

If you call a company, ask if they can provide the most recent 1 or 2 rate increases. Stay away from those with large increases.

You qualify for guaranteed enrollment in a Medicare Supplement plan for a 6 month period beginning when you are 65 or older and enroll in Medicare Part B.

If enrolled in Medicare due to disability, only plan ‘A’ is available. Plan A covers the 20% Medicare part B copay.
